Yeanul Haque Khan Akib

SOFTWARE ENGINEER / FULL-STACK DEVELOPMENT

Dhaka, Bangladesh | +880 1757 404362 | yhk.akib12@gmail.com
github.com/akiibot | linkedin.com/in/akiiibot | Portfolio

Full-stack developer and CSE undergraduate working with **React/Next.js, Python/FastAPI** and relational databases. Experienced in AI software QA and staging validation. I enjoy competing in hackathons and building relevant products that solve real problems.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, PHP
Frontend: React.js, Next.js (App Router), HTML/CSS, Tailwind CSS
Backend & APIs: FastAPI, Node.js, REST APIs, WebSockets, Pydantic
Databases: PostgreSQL/Supabase, MySQL, SQLite, SQLAlchemy; schemas, migrations, indexes
Testing & Delivery: Pytest, Vitest, Git/GitHub, Docker, Vercel, Railway, Render
AI Development: Codex, Claude Code; custom agent skills and MCP server development
AI Integrations: Gemini, Vertex AI (GCP), Cloudflare Workers AI
Product QA: Artistly.ai, VideoExpress.ai, CloneVoice.ai; staging and regression testing

PRODUCT DEVELOPMENT

Find My Paw

findmypaw.app

Creator & Developer | Pre-release | Private GitHub repository

QR pet identification that helps finders contact owners without installing an app.

Attracted **40+ real users** through a prerelease test in **one Facebook group.**

Built QR-linked pet profiles and owner contact; preparing for public launch.

PROFESSIONAL EXPERIENCE

AI Software Support | Strontium Corporation

2025 - Present

Quality Assurance & Technical Support | Remote

Products: Artistly.ai | VideoExpress.ai | CloneVoice.ai

- Compare staging releases with production to evaluate AI output quality and feature behavior, identifying regressions, defects and usability issues before release.
- Documented **50+ defects**; reproduce issues and share testing evidence, potential fixes and improvement recommendations with developers.
- Support **50-60 users daily** through Help Scout and communicate **60+ product suggestions**.

Coding Instructor | Dreamers Academy

2026 - Present

- Teach Python and Scratch to **120+ students** aged 8-12 in live classes using Zoom and Replit.
- Develop project-based lessons covering variables, loops and conditionals; lead trial classes.

AWARDS & ACHIEVEMENTS

Champion - The Infinity AI Buildfest, MarTech | Team Lead
Global Finalist - NASA Space Apps Challenge 2025 | Team Lead
Champion - 12th IUT ICT Fest 2026, GameJam
Champion - Prompt Engineering Competition, BRACU ROBU Traction 2025
1st Place - IT Olympiad, National Science Carnival 2022
The Duke of Edinburgh's International Award - Bronze Standard

SELECTED PROJECTS

Imprnt AI
github.com/akiibot/inprnt-ai

Turns brand guidelines and campaign briefs into on-brand Bengali/English social media posters.

Next.js · React · TypeScript · Python/FastAPI · Supabase · Docker

- Built a full-stack campaign workflow with REST APIs, Supabase PostgreSQL/Storage and AI integrations. Containerized the backend with **Docker** and implemented concurrent asset processing.

ResearchLens V2
github.com/akiibot/researchLensV2

Helps thesis students discover related papers, research gaps and potential supervisors.

Next.js · React · TypeScript · PostgreSQL/Supabase · Gemini / Vertex AI

- Integrated OpenAlex, Semantic Scholar and DataCite for retrieval, deduplication and ranking. Defined **PostgreSQL migrations**, relationships, JSONB, indexes and row-level policies, with owner-scoped API access.

CropGuard AI
github.com/akiibot/CropGuard-AI

A bilingual crop-monitoring prototype that turns sensor readings into risk scores and reports.

Next.js · Python/FastAPI · WebSockets · SQLAlchemy/SQLite · Pytest

- Implemented live updates and data persistence; separated deterministic risk scoring from AI narration. Added **8 Pytest unit tests** for risk calculations, missing sensor data and forecasts.

Jointly
github.com/akiibot/jointly

Checks parallel AI-generated code changes for behavioral conflicts before they are merged.

Node.js · TypeScript · Git · Model Context Protocol (MCP) · Vitest

- Built a monorepo with isolated Git workspaces, a CLI, an **MCP server** and Vitest verification suites. Added reusable agent skills and tools for interaction testing, repair verification and evidence-based merge decisions.

EDUCATION

BRAC University
2023 - Present

B.S. in Computer Science and Engineering (in progress)

Relevant coursework: Algorithms (CSE221)

Dhaka Residential Model College

Higher Secondary Certificate (HSC), Science | GPA: 5.0/5.0 — 2020 - 2022

Secondary School Certificate (SSC), Science | GPA: 5.0/5.0 — 2018 - 2020

LEADERSHIP & VOLUNTEERING

Organizing Secretary | DRMC Science Club
2021 - 2022

Executive Committee

- Helped organize National Science Carnival 2022 and national Olympiads; trained volunteers.

Volunteer | RS Championship - Summer 2024
2024

- Supported sports-event organization and distribution of T-shirts, jerseys and souvenirs.

LANGUAGES

English: Fluent | **Bengali:** Fluent
